PROFESSIONAL SUMMARY

Recent Bachelor of Technology in Computer Engineering with hands-on experience in **software development**, **testing**, and **debugging**. Developed projects utilizing **SQL** and various web technologies, including **HTML** and **CSS**. Contributed to a project that integrated real-time communication features, showcasing strong problem-solving skills and a commitment to delivering quality software solutions.

EDUCATIONS

Divine Child School 2021
Class X (CBSE) *Percentage : 89.5%*

Vidhyamandir Trust 2022
Class XII (GSEB) *Percentage : 96.87%*

Pandit Deendayal Energy University (PDEU) | Gandhinagar Jun 2023
Bachelor of Technology in Computer Engineering *CGPA : 9.62 / 10*

WORK EXPERIENCES

Associate Software Engineering Intern | Internship Jun 2026 - Present
Accenture

- Contributed to Oracle Fusion CX implementations by supporting enterprise CRM workflows and business requirements.
- Customized Oracle Fusion applications using Groovy scripting and configuration-based solutions.
- Worked with Oracle Fusion Cloud, SQL, and enterprise CRM concepts while executing assigned tasks.
- Collaborated with cross-functional teams in an Agile environment to deliver client-focused solutions, applying software testing and debugging techniques to ensure quality.
- Engaged in the Software Development Life Cycle to enhance project outcomes.

Technologies / Skills Used : *Oracle Fusion, Groovy, SQL*

PROJECTS

CareerPath – AI-Powered Career Mentorship Platform

- Built an AI-powered career platform that analyzes user profiles, identifies skill gaps, and generates personalized learning roadmaps using LLMs.
- Integrated resume analysis, progress tracking, conversational assistance, and learning resource recommendations using MongoDB and web search APIs.
- Developed scalable REST APIs with Python and FastAPI for secure data management, persistent chat history, and user progress tracking.
- Designed a responsive React.js frontend with OAuth authentication and interactive globe visualization.
- Implemented contextual AI memory, automated task execution, and dual-model inference for personalized career guidance.

Technologies / Tools Used : *React.js, Express.js, Tailwind CSS, MongoDB, Python, OpenAI API*

CallFlow – Enterprise CRM & Business Management Platform

- Engineered a full-stack CRM platform to streamline customer, service, sales, and order lifecycle management through automated business workflows.
- Architected secure REST APIs with JWT authentication, RBAC, Prisma ORM, PostgreSQL, bcrypt encryption, OTP verification, and audit logging.
- Integrated Socket.IO, WhatsApp, phone, email, and Google Maps APIs to enable real-time communication, location-aware services, and customer engagement.
- Optimized application performance using connection pooling, efficient relational schema design, query optimization, caching, and real-time WebSocket synchronization.
- Developed role-based dashboards with analytics, Excel/PDF export, automated notifications, and business reporting to improve operational efficiency.

Technologies / Tools Used : *React, TypeScript, Node.js, PostgreSQL, Prisma, Socket.IO*

SKILLS

Databases :	MongoDB, PostgreSQL, Prisma ORM, MySQL
Tools & Platforms :	Git, GitHub, VS Code, Playwright, Cheerio, OpenAI API
Frameworks & Libraries :	React.js, Node.js, Express.js, Tailwind CSS, Socket.IO
Programming Languages :	C, C++, Java, Python, JavaScript, TypeScript, HTML, CSS

ACHIEVEMENTS & ACTIVITIES

- Solved **180+** DSA problems.
- Participated in HackOut **2025** at DA-IICT, Gandhinagar.

- Participated in Odoo Hackathon and Smart India Hackathon (**2024** & **2025**).
